

## DAFTAR LAMPIRAN

|   |    |
|---|----|
| Lampiran 1. Perhitungan peramalan model <i>moving average</i> k=2 periode .....   | 51 |
| Lampiran 2. Perhitungan peramalan model <i>moving average</i> k=3 periode .....   | 52 |
| Lampiran 3. Perhitungan peramalan model <i>moving average</i> k=4 periode .....   | 53 |
| Lampiran 4. Grafik model <i>single moving average</i> .....   | 54 |
| Lampiran 5. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,1$ dan $\beta=0,1$ ..                               | 55 |
| Lampiran 6. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,1$ dan $\beta=0,6$ ..                               | 56 |
| Lampiran 7. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,1$ dan $\beta=0,9$ ..                               | 57 |
| Lampiran 8. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,6$ dan $\beta=0,1$ ..                               | 58 |
| Lampiran 9. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,6$ dan $\beta=0,6$ ..                               | 59 |
| Lampiran 10. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,6$ dan $\beta=0,9$ .                               | 60 |
| Lampiran 11. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,9$ dan $\beta=0,1$ .                               | 61 |
| Lampiran 12. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,9$ dan $\beta=0,6$ .                               | 62 |
| Lampiran 13. Perhitungan model <i>holt's exponential smoothing</i> $\alpha=0,9$ dan $\beta=0,9$ .                               | 63 |
| Lampiran 14. Grafik model <i>holt's exponential smoothing</i> $\alpha=0,1$ dan ( $\beta=0,1$ $\beta=0,1$<br>$\beta=0,1$ ) ..... | 64 |
| Lampiran 15. Grafik model <i>holt's exponential smoothing</i> $\alpha=0,6$ dan ( $\beta=0,1$ $\beta=0,1$<br>$\beta=0,1$ ) ..... | 65 |
| Lampiran 16. Grafik model <i>holt's exponential smoothing</i> $\alpha=0,9$ dan ( $\beta=0,1$ $\beta=0,1$<br>$\beta=0,1$ ) ..... | 66 |
| Lampiran 17. Perhitungan model HSE $\alpha=0,6$ dan $\beta=0,1$ dengan menggunakan data<br>dari tahun 1984 hingga 2021 .....    | 67 |
