to me

Dear Endri Endri,

the manuscript ENTREPRENEURIAL COMPETENCE AND PERFORMANCE OF SMEs: THE MODERATING ROLE E-COMMERCE , submitted to Problems and Perspectives in Management Journal, needs to be revised.

Comments:

We ask you to align the manuscript following the Guidelines <https://businessperspectives.org/journals/problems-and-perspectives-in-management#submission-guidelines-for-authors>

Please, pay attention that the research paper, which is a final report on the finished original experimental study, the structure is Abstract, Introduction, Literature review, Method, Results, Discussion, Conclusion.

Carefully divide text between sections. Do not divide sections into small subsections and do not involve additional sections.

Clearly and concretely state the aim of the study and the title.

Write the Abstract according to the following algorithm: first two or three sentences indicate the relevance of the topic; the aim and object of the study; the methodology (methods) of the study (for theoretical studies – its theoretical basis) are described; the obtained results and their practical value are characterized. Dedicate most of the Abstract to the result. While demonstrating it, provide quantitative characteristics. The volume of the Abstract should be 150-250 words.

The keywords should reflect the area of the research. The number of keywords should be 5-10 in average. There should not be the sentences, but the words or word groups. There is no need to replicate words from the title of the manuscript.

Specify JEL classification codes. They must be two-digital (for example, M12) and reflect content of the paper.

The Introduction (0,5-1 page) should be devoted exclusively to the relevance of the research topic and the formulation of the problem in general. Do not review the literature here.

The Literature review (40-50 analyzed sources) should begin with a few introductory sentences. It should also be completed with 2-3 general sentences. Then authors should complete it by formulating the Aim. Then provide hypotheses (right here and altogether, do not place the text between them). Then should be Methods.

The Result section is the main section of the article.

The Discussion section should discuss the study results, compare them with previous ones, discuss why the authors have such results, determine future prospects.

The Conclusions were built incorrectly. There should be such logic in the Conclusions - indicate the aim of the research, briefly demonstrate the result, indicate what conclusions should be drawn from it. Do not refer to sources here.

The deadline for revisions is 2022-10-27

To revise a manuscript please don't forget to log in to the system and to upload a revised manuscript!

5:18 PM

to me

Dear Endri Endri,

the manuscript ENTREPRENEURIAL COMPETENCE AND PERFORMANCE OF SMEs: THE MODERATING ROLE E-COMMERCE , submitted to Problems and Perspectives in Management Journal, needs to be revised.

Comments:

Indicate in the abstract, who exactly was interviewed, what the sample was, why it is the way it is, and how relevant it is.

Necessary to be more responsible in choosing keywords.

Logically complete the Literature Review. There should be 2-3 generalizing sentences. Then immediately clearly and concretely formulate the purpose of the research. Then hypotheses.

In the Methods section, (not in the Result section), indicate who exactly was interviewed, what the sample was, why it is the way it is, and how relevant it is.

Please, check the plagiarism report and revise the manuscript <https://drive.google.com/file/d/1JB4Svqs-cNUOUCHCOPx3aTs9ydkOd2Hs/view?usp=sharing>

10:02 PM

to me

Dear Endri Endri,

the manuscript ENTREPRENEURIAL COMPETENCE AND PERFORMANCE OF SMEs: THE MODERATING ROLE E-COMMERCE , submitted to Problems and Perspectives in Management Journal, needs to be revised.

Comments:

Please follow all previous recommendations.

For example, the abstract does not show who exactly was interviewed, what the sample was, why it is like that, and how relevant it is. There are no specifics in the abstract while demonstrating the results of the study.

The Conclusions should have the following logic - indicate the purpose of the study, briefly demonstrate the obtained result, and indicate what conclusions should be drawn from it.

We ask you to carefully process the text for the purpose of observing the logic of the presentation of the material, for the purpose of its academics. Every sentence, every paragraph, the entire text.

to me

Dear Endri Endri,

the manuscript ENTREPRENEURIAL COMPETENCE AND PERFORMANCE OF SMEs: THE MODERATING ROLE E-COMMERCE , submitted to Problems and Perspectives in Management Journal, needs to be revised.

Comments:

Authors should carefully read the article themselves and work out all the previous recommendations.

For example, in the abstract, indicate who exactly was interviewed, why such a sample, how relevant it is, how the interview was conducted, and how the results were

processed. About which country are authors writing? While demonstrating the results of the study, provide quantitative indicators.

The deadline for revisions is 2023-01-18

Wed, Mar 8,
10:54 PM

to me

Dear Endri Endri,

the manuscript ENTREPRENEURIAL COMPTENTENCE AND PERFORMANCE OF SMEs: THE MODERATING ROLE E-COMMERCE , submitted to Problems and Perspectives in Management Journal, needs to be revised.

Comments:

It is required to process the entire text of the article carefully.

The purpose of the research should be formulated more correctly in the abstract. What does "using e-commerce as a mediating factor" mean in its context? This should be explained in the text of the article. What does "most prominent business category" mean? Who exactly was interviewed in the enterprises? What does "via social media" mean (should be clarified)?

This would be better removed and instead concretely and thoroughly demonstrate the result of the study - "Empirical findings prove that the use of e-commerce affects business performance. Furthermore, the use of e-commerce positively influences technology readiness, implementation costs, and its impact on business performance. However, entrepreneurial skills are essential in the relationship between e-commerce and SME performance. This research provides recommendations for SME managers and practitioners who must pay attention to the determinants of successful e-commerce implementation and business performance improvement."

When the authors write something like "The study applies technological innovation using the TOE model.", what kind of research do they mean? Actually? Then this whole paragraph at the end of the Review looks very strange.

There should be 40-50 analyzed sources in the literature review. It should start with a few introductory sentences. The review should also be concluded with 2-3 summarizing sentences. Then the purpose of the research should be formulated. After that, provide hypotheses.

The Methods section should be completely redone.

The text is difficult to understand at the moment. The research procedure should be written out in a formalized and academic manner.

All tables and figures should be signed in such a way that it is clear and comprehensive. Check the column names in Table 3. Where is the hypothesis testing?

The Conclusions should have the following logic - indicate the purpose of the study, briefly demonstrate the obtained result, and indicate what conclusions should be drawn from it.

The deadline for revisions is 2023-03-15

Dear Endri Endri,

I would like to inform you that your manuscript titled “Determinants of performance SMEs: Evidence from Indonesia” has been accepted for publication, and planning to be published in the issue 1, 2023 of the journal “Problems and Perspectives in Management”.

As soon as the payment will be done, I'll provide you with APC confirmation letter to let you have the reimbursement from your institution (if you need).

The article processing charge (APC) is **1095** euro. Please, use data below for payment:

Kindly ask you to pay the commission and send the receipt after payment.

The paper will be open access, in compliance with LLC “CPC “Business Perspectives” copyright policy, you will retain all rights to the contents of the published article under following Creative Commons license (CC BY) 4.0.

Also, the Author confirms that there is no conflict of interest to be declared (please, put a tick in the box, if you agree with this statement), choose the type of the license, sign Publication Agreement (attached) and send it back.

We encourage you to share information about the preprint with your colleagues (via e-mail or share article on Twitter and LinkedIn) and subscribe to our pages:

https://twitter.com/PPM_Journal

<https://www.linkedin.com/in/journal-problems-and-perspectives-in-management>

Subscription will give you the opportunity to keep abreast of all events and relevant articles.

You may send out press releases to local media and publish internal newsletters. It’s a good idea to post information about preliminary calculations and research at figshare <https://figshare.com>

Could you maybe also make a short recommendation on LinkedIn?

I look forward to hearing from you soon.

With kind regards,

Katerina

Dear Endri,

Thank you for your prompt feedback.

We will inform you when the payment will be on our account.

Meanwhile, kindly ask you to send editable (original) figures. Acceptable formats are: wmf, eps, svg, any vector drawing, file excel or attached example. The Figure should be with objects, which we can edit, move, work on them. NOT picture disguised as wmf, eps, svg! It is possible to obtain only by exporting from the original program in which it was created and nothing else. Graphic illustrations (flow charts, diagrams, graphs) must be built in the programs of MS OFFICE, and contain the built-in data file.

Look forward for figures within 2 days.

Sincerely,

Katerina
