

ABSTRACT

Nur Harits Ahmad, Public Administration Department, Faculty of Social and Political Sciences, Universitas Djuanda, 2017, The Policy Implementation to Control Covid-19 Outbreak in Tamansari District, Bogor Regency, 1st Supervisor: Denny Hernawan, Drs., MA, 2nd Supervisor: Drs. R. Akhmad Munjin, M.Sc.

The purpose of this study was to determine the policy implementation for handling COVID-19 in Tamansari District, Bogor Regency. This study uses the theory of policy implementation from George C. Edward III which includes four dimensions, namely communication, resources, disposition, and bureaucratic structure. This research method is descriptive quantitative. The research respondents were village officials and the sub-district of Tamansari and the people of Sirnagalih Village, Sukamantri Village, Sukajaya Village, Sukajadi Village. The data collection instrument was an interview, which was then assisted by direct observation, documentation and literature study using the instrument scale, namely the Likert scale. The collected data were analysed and categorized by Weight Mean Score (WMS).

The results of this study indicate the implementation of the Covid-19 outbreak control policy in Tamansari District, Bogor Regency. Based on the results of the average calculation, especially in Sukajadi Village, Sukajaya Village, Sukamantri Village, Sinargalih Village, the highest scores were 4.13 and 4.08 with good assessment criteria on the dimensions of Communication and Disposition. The lowest interpretation criteria are the indicators of authority information in the dimensions of Resources with a score of 3.96 the assessment criteria are Good. The results of the recapitulation of the overall dimensions of the assessment are an average of 4.08 with good criteria.

Keywords: Policy Implementation, Control of the Covid19 Outbreak, Tamansari District.

ABSTRAK

Tujuan dari penelitian ini adalah untuk Mengetahui implementasi kebijakan dari penanganan COVID-19 di Kecamatan Tamansari Kabupaten Bogor. Penelitian ini menggunakan teori implementasi kebijakan dari George C. Edward III yang mencakup empat dimensi, yaitu komunikasi, sumber daya, disposisi, struktur birokrasi. Metode penelitian ini bersifat kuantitatif Deskriptif. Responden penelitian adalah Aparatur Desa dan Kecamatan Tamansari dan masyarakat Desa Sirnagalih, Desa Sukamantri, Desa Sukajaya, Desa Sukajadi. Instrumen pengumpulan data adalah wawancara, yang kemudian dibantu dengan observasi langsung, dokumentasi dan studi kepustakaan memakai skala instrument yaitu skala likert. Data yang telah dikumpulkan dianalisis dan dikategorikan dengan Weight Mean Score (WMS).

Hasil penelitian ini menunjukkan bahwa Implementasi kebijakan pengendalian wabah covid-19 Di Kecamatan Tamansari Kabupaten Bogor Berdasarkan hasil rata-rata perhitungan khususnya di Desa Sukajadi, Desa Sukajaya, Desa Sukamantri, Desa Sinargalih diperoleh angka tertinggi 4,13 dan 4,08 dengan kriteria penilaian baik pada dimensi Komunikasi dan Disposisi. Adapun kriteria penafsiran terendah yaitu pada indikator informasi kewenangan dalam dimensi Sumber Daya dengan skor 3,96 kriteria penilaian Baik. Adapun hasil rekapitulasi penilaian keseluruhan dimensi yaitu rata-rata 4,08 dengan kriteria Baik.
