Submission of an original research article to Russian Law Journal (RLJ)

Endeh Suhartini <endeh.suhartini@unida.ac.id>
To: editor@russianlawjournal.org

Wed, Apr 5, 2023 at 9:34 AM

Dear Editor-in-Chief,

My name is **Endeh Suhartini** as the corresponding author for this article

We would like to submit the enclosed manuscript entitled "**DIGITALIZED SYSTEM OF SUPERVISION OF MIGRANT WORKERS FOR LEGAL PROTECTION AND LEGAL CERTAINTY**", which we wish to be considered for publication in "**Russian Law Journal (RLJ)**".

No conflict of interest exists in the submission of this manuscript, and manuscript is approved by all authors for publication. We would like to declare on behalf of my co-authors that the work described was original research that has not been published previously, and not under consideration for publication elsewhere, in whole or in part. All the authors listed have approved the manuscript that is enclosed.

The Indonesian Migrant Worker Protection Agency (BP2MPI), previously known as the National Agency for the Placement and Protection of Indonesian Migrant Workers (BNP2TKI), is a nondepartmental government agency in Indonesia that has the function of implementing policies in the field of placement and protection of Indonesian workers. The existence of this agency has hopes for the community, especially Indonesian Migrant Workers to obtain legal certainty and legal protection in several countries in the world that employ. A Migrant worker is a substitute term for Indonesian Migrant Workers (TKI) which has been officially used under Law Number 17 of 2017 concerning Protection of Indonesian Migrant Workers. Goals of Indonesian Migrant Workers who work in several countries in the world have great hopes of fulfilling the necessities of a decent life while at the same time improving the economy for themselves and their families considering the wages or salaries offered are higher than in Indonesia. The obstacle for Indonesian Migrant Workers are that often sending Migrant Workers is still constrained by the large number of companies sending Indonesian Migrant Workers who are not official so that legal protection and legal certainty for Indonesian Migrant Workers have not been fully fulfilled. Based on the results of observations and analysis, another obstacle is that supervision from the Government has not been maximized and the digitization system for monitoring Indonesian migrant workers has not been implemented in various countries to supervise these Indonesian Migrant Workers. The digitalization system is significantly important to be implemented by the Government to provide legal certainty and legal protection for Indonesian migrant workers so that supervision can be maximized by the Government and Non-Governmental Institutions that assist in supervising Indonesian Migrant Workers. I hope this paper is suitable for "**Russian Law Journal (RLJ)**"

Thank You very much
We are looking forward to your kindly response soon.

Dear Respected Author,

It's my great pleasure to inform you that your paper encoded "#987" has been reviewed by our selected reviewers and editors and will be accepted for publishing in **DIGITALIZED SYSTEM OF SUPERVISION OF MIGRANT WORKERS FOR LEGAL PROTECTION AND LEGAL CERTAINTY** after moderate revision. The following attachments are sent with regards to you. Kindly revise the manuscript according to reviewer's comments, edited article and specially from Authors Instruction standpoint and submit the revised manuscript within a week.

Please Reviewer 1:

- This article is very up-to-date and interesting, but in my opinion the novelty is not visible in the introduction, because the references you have quoted are still minimal and have not been compared with your research, so the novelty is not visible.
- Literature review needs to be strengthened with current references to discuss the problem you are researching.
- Abstract is too long and wordy, the abstract must be concise and interesting in showing the problems, objectives methods and novelty of the research results
- The research method must be described in detail so that each process is carried out.
- The discussion is not in depth, so deepen the discussion with the findings of previous researchers

If there is anything else, let me know.

We appreciate your interest in **Russian Law Journal (RLJ)**

Dear Respected Author,

Thank you for your efforts to make improvements to your article.

Based on the Reviewers' considerations, the article has, at some point, increased. However, you have to improve on a few more points, Hopefully, you are willing to do it. Kindly revise the manuscript according to reviewer's comments, edited article and specially from Authors Instruction standpoint and submit the revised manuscript within a week

Please Reviewer 2:

- I was hopeful that this article would be readily usable thought the English in parts is so low that reading is challenging. The topic is of great importance..
- The discussion section must be deepened, the author must link the topics discussed with previous references. In this The related literature seems missing with important/significant research, including (but not limited to)
- Conclusions must be brief and clear explaining the core research findings.
- If the author could work with a robust English language editor or colleague to clean up both language and argument, it might be publishable.
- References need to be reproduced with the latest journals relevant to the research theme.

If there is anything else, let me know.

We appreciate your interest in **Russian Law Journal (RLJ)**
